# **ABOUT WESTLAKES**

Smarter, faster, more agile- we are a nuclear pure play and the sectors go to business for diverse, end-to-end, people solutions.

We deliver recruitment, search and consultancy services to the global nuclear market, from our headquarters in Cumbria, UK.

Our products add value by delivering nuclear specific people solutions, powered by diversity, financial innovation and cutting - edge technology.

Westlakes Recruit was founded in 2011 by Claire Wilcock; Claire sought balance between motherhood and an insatiable entrepreneurial spirit, following a lifetime of belonging to a community of one of Europe's largest nuclear sites.

**FOUNDED IN  
2011**

Claire & Mark Wilcock now run the company together and nearly a decade on, we have provided 1,000s of people to design, build, commission and operate nuclear facilities, UK wide.

We are incredibly proud of the work we do, helping people create relationships that make a difference to their lives, careers and businesses.

But, as a family business, it's our family values and what we stand for that will always be the strength of our business.

## **NUCLEAR PURE PLAY**

**01**

Smarter, faster, more agile - we have a laser focus on nuclear, with deep sectoral knowledge. We develop nuclear talent pools around specific sector requirements, before you know you need them!

## **NUCLEAR END-TO-END**

**02**

We do Nuclear. We only do Nuclear. We do all of Nuclear.

## **NUCLEAR FAMILY**

**03**

Family ownership offers unique agility and an unerring commitment to innovation in our products, finance and technology. To beat our corporate competitors - we need to outthink them.

## DIVERSITY

Diversity is a core value for Westlakes Recruit, it is who we are and underpins our vision to power a diverse nuclear future.

The nuclear industry has been very kind to us at WR, as our business continues to grow, we are becoming more present on a national and global level. And with it, we are becoming more accessible to many diverse people from global society.

We strongly believe that diverse thinking with inclusive cultures can drive greater decision making and organisational agility. There is a world of talent, some close to home, that can't access Nuclear. We want to make a positive change.

We are deeply committed to ensure that the next generation of the global nuclear workforce is more diverse than the last and that the little atoms of the future have equal opportunity.

“”

I'm particularly interested in helping Westlakes Recruit achieve their ambition of helping the sector become more diverse though attracting and offering candidates new to the sector or changing role within it. More diverse teams are happier, more productive and stay longer. Why wouldn't we want that?

# CANDIDATES

Westlakes Recruit take pride in being smarter, faster and more agile.

This is why we offer fully compliant, automated and paperless recruitment solutions to our candidates. As a family business which is growing every day, our online correspondence capabilities offer fast, easy and accurate access for both national and international candidates. At Westlakes Recruit we deal with individuals and businesses globally, and it is important to protect the personal information and data of all our clients and candidates.

Our recruitment process ensures that we are complaint with GDPR, so we can continue to provide excellence in powering a diverse nuclear future.

“”

From the moment I contacted Westlakes Recruit, to the moment I found the perfect job for me, the service I recieved from Westlakes Recruit was nothing short of fantastic, keeping me informed at every turn.

This is the first recruitment agency I have worked with where I felt that they genuinely had my interests at heart.

## PROGRAMME MANAGER

Our reputation is a vital asset and it depends on our people doing the right thing, every day. That's why our values and guiding principles aren't just a set of "rules" – they are an approach to working that challenges us always to do the right thing. Our commitment to this way of working, is our commitment to excellence for all our customers.

Westlakes Recruit have also been actively innovating in the way that they collaborate with us and that has given even more valuable access to enable us and potential candidates to understand each other, enabling both parties to make a more informed decision. We value this relationship highly, Westlakes Recruit are a key stakeholder in ensuring our future growth.

**CONTRACTS MANAGER**

“”

Westlakes Recruit have provided support with the recruitment of project controls professionals for our nuclear operation. The team worked hard to understand the specific requirements and align candidates to closely match that brief. Establishing interviews and obtaining feedback was smooth.

Westlakes Recruit have successfully placed half a dozen candidates over the last 14 months.

**DIVISIONAL DIRECTOR**

“”

For the past 3 years I have been dealing with Andrew at Westlakes Recruit in order to fulfil the labour resource requirements of the project and have always found them easy to work with and receptive to the requirements of the business.

I would not hesitate in using Westlakes Recruit again for our labour requirements on future projects that I am involved with.
